

Mobilgard™ 570

Diesel Engine Cylinder Oil

Product Description

Mobilgard 570 is a high performance diesel engine oil formulated with advanced additives to provide excellent protection against wear, oxidation, and deposits. It is designed for use in diesel engines operating under severe conditions, including high temperatures and heavy loads. The oil meets the requirements of the latest industry specifications and provides superior fuel economy and engine life. It is available in various grades and packaging options to suit your needs.

Features and Benefits

Mobilgard 570 offers the following features and benefits:

Features	Advantages and Potential Benefits
Excellent wear protection	Reduces engine wear and extends engine life
Superior oxidation stability	Prevents oil degradation and sludge formation
Excellent detergency	Keeps engine components clean and free of deposits
Outstanding fuel economy	Reduces fuel consumption and operating costs
High thermal stability	Resists thermal breakdown at high temperatures
High TBN	Provides excellent neutralization capacity for acidic by-products

Applications

Mobilgard 570 is recommended for use in diesel engines of marine vessels, including commercial fishing boats, tugboats, and offshore supply vessels. It is also suitable for use in diesel engines of construction equipment, such as bulldozers, excavators, and generators. The oil is designed to provide excellent protection against wear and oxidation, ensuring optimal engine performance and longevity. It is available in various grades and packaging options to suit your needs.
